EDUCATION

Vassar College - Poughkeepsie, NY

Expected May 2029

Bachelor of Science in Computer Science and Mathematics

GPA: 3.91

EXPERIENCE

Vassar College Computing and Information Services - Poughkeepsie, NY

Sept 2025 - Present

Computing & Information Services (CIS) Assistant

- First point of contact for technical support, resolving issues across Windows, macOS, and campus applications.
- Troubleshoot network connectivity, printer/scanner access, and account-related issues.
- Escalate complex issues to specialized IT teams while maintaining clear documentation.

Vassar College Department of Computer Science - Poughkeepsie, NY

Fall 2026 (Incoming)

Teaching Assistant - CS 145: Foundations of Functional Programming (OCaml)

- Selected to support the Fall 2026 offering of CS 145, assisting students with OCaml syntax and functional programming concepts.

Vassar College International Students Office - Poughkeepsie, NY

Dec 2025 - Present

Web Editor Intern

- Collaborate with IT staff to improve website accessibility, usability, and content clarity for international students.
- Manage and publish web content on international student resources, immigration policies, and campus events via the college's CMS.

Vassar African Students Union - Poughkeepsie, NY

Oct 2025 - Present

President

- Lead the executive board organizing cultural and community events for roughly 150 African students at Vassar.
- Coordinate communication and collaboration across student leaders to ensure smooth planning and execution of programs.

VC++ (Vassar College Computer Science Club) - Poughkeepsie, NY

Oct 2025 - Present

Secretary & Executive Board Member

- Co-organized a campus-wide hackathon for Vassar's tech students, coordinating logistics, registration, and judging.

PROJECTS

Employee Management System

Solo backend project: Java/Spring Boot REST API for full CRUD employee management, with MySQL storage and a layered controller/service/repository architecture.

Vassar African Students Association Website

Official web platform for VASU: dynamic landing page, secure student-only sign-up/login, an internal resource hub (CPT/OPT, housing, insurance), and an internal dashboard/chat system.

Lunch Box (Android App)

Android app for searching, rating, and reviewing restaurants with sorting/filtering by name, location, and rating; used Firebase for auth and data persistence.

SKILLS

Languages: Python, Java, C/C++, JavaScript/TypeScript, Kotlin, OCaml, SQL

Frameworks & Tools: React.js, Next.js, Node.js, Spring Boot, Flask, Git, GitHub, CI/CD

Other: REST API development, PostgreSQL/MySQL/MongoDB, bilingual (English, Amharic)
